COLOGNEOFF 20XX - VIDEOART IN A GLOBAL CONTEXT

– Searching for an ideal form of presenting videoart

As a dynamic media art event context and nomadic festival project designed, programmed, curated and directed by Agricola de Cologne in the framework of Cologne International Videoart Festival, "Cologne OFF 20XX – videoart in a global context" started in 2010, when he took the perception how the jury for his 6th festival edition (directors of 7 reknown international festivals) was voting - just one video collected 4 votes showing the curators following strictly their individual curatorial point of view - as the basis for researching an (his) ideal form of (re)presenting videoart.
