**Johanna Reich** – “Black Hole”, 2009, 6:00

A person dressed in black digs a hole into snow. The person disappears in front of the camera.

**Ebert Brothers**– “Bluescape, 2006, 2:54

Bluescape is an experimental animation clip about the process of remembering. Something is triggered in the protagonist's mind, resulting in a cascade of memories strong enough to turn him inside out.

**Agricola de Cologne**– “Distortion projected”, 2005, 4 :50

In 1998, Agricola de Cologne became a victim of a terror attack. The video is the attempt to make the traumatic experiences perceivable via metaphoric images on an emotional level .

**Alfred Banze**– Exotica, 2010, 6:30

EXOTICA – machine directed movements – along escalators – moving luggage – trains and reading displays – and change trains and subways – and escalators and elevators – safety belts and displays – and announcements and meals – the flower corner – the kitsch of the eighties –

**Philip Matousek**– A Beautiful Day 2009, 3:09

A very lonely girl has her very special day..

**Anna Porzelt**– One's Bits and Pieces 2009 3:00

Metaphysical short about the presence of the (personal) past.

**Ascan Breuer** – “The Kurukshetra–Report 2009, 8:00

...Two bodies in battle – mutually smitten in clean engagement. THE KURUKSHETRA–REPORT is an expedition to the nucleus of violence. In cold blood the video peels the flesh to reach the pure core, to take this dumb thing talk point–blank – without mercy.....

**Urszula Kluz-Knopek (adija) – Title: To be a Wife, year 2010, duration 3:24**

The bird got married to be happy. She became a pretty housewife (hen) with a heart full of hope and with a belly full of her husband's (cock) stuffing. The stuffing consisted of all roosters' advantages, few bottles of beer, fat and gold.

**Krzysztof Kuźnicki – Look(s) like..., year 2010, duration 3:52**

Human's eyes confronted with a time passing constantly. Artist's eye as a witness and commentator of the reality, imagination, history and present time. Mankind's eyes as a reason and result of looking.

**Dominik Pabis – "Game, year 2004, duration 6:05**

[...] They exist for themselves in the virtual world only. Usually the players' aim is to eliminate opponents as soon as possible. This is a safe males' fight, transferred into virtual game. We do not know, we do not see what causes their reactions and what game they play, we just focus on the observation of their atavistic behaviors.

**Kamil Smuga – "The same , year 2010, duration 8:55**

Work on the film took several years, the process of conceptual lasted the longest. At that time, attempted to record to make sure that the imagination translates into an image. Throughout this period, I was accompanied by keywords such as: the monotonous, identical, same or similar. THE SAME is a summary of those thoughts.

**Alicja Zebrowska – Metatrauma, year 1998, duration 3:11**

Metatrauma is a small video piece, which brings motives of death, youthfulness and sexual energy together with an eternal wondering over the force and desire of creativity. The objects appearing at the beginning and end of the film perhaps serve to enhance the idea of mankind's desperate struggle for existence.

**Antoni Karwowski – Timmervik, Year 2010, duration 3:38**

As a nomadic festival project running 12 months, CologneOFF 2011 is focussing on experimental aspects of the „global“ art medium “video” (experimental film and videoart) by spotlighting the diversity of artistic and curatorial contributions from many countries around the globe. Every month of 2011 is dedicated to other geographical global regions, among them , à Africa, Northern Europe, Mediterrenian, Eastern Europe, Balkan, UK–Ireland, Latin America, Germany–Austria, France–Spain–Portugal, Middle East, Far East.

This ambitious media art project is using CologneOFF VI & CologneIF VII – the 6th & 7<sup>th</sup> festival edition– as its fundament – including for the first time an international jury consisting of the curators from 7 internationally reknown festivals **Margarida Paiva** ( director Oslo Screen Festival), **Gioula Papadopoulou** (curator Videoart Festival Miden Greece), **Macu Moran** (director Videoart World Barcelona), **Giorgio Fedeli** (curator VisualContainer Milan), **Jonas Nilsson/Eva Olsson** (art:screen Orebro), **Mohamed Allam** (director Medrar Video Festival Cairo /Egypt), **Tamas Gabeli** (director Budapest International Shortfilm Festival Hungary)

as well a basic screening program to be extended and complemented by curatorial contributions of videoart, presenting and reflecting not only various views on the art medium itself, but also on the selected artists and art works intending to confront the audience a variety of artistic and curatorial approaches. The filters of 12 additional thematic projects complement the concept of presenting diversity.

While CologneOFF 2011 is present 24 hours a day on the net from 1 January 2011 on, each month physical events are scheduled at other around the globe in form of screenings, presentations and exhibitions to be complemented by lectures and workshops.

The presentations of CologneOFF 2011 will not only demonstrate the power of the presented video works, but also the power of presenting the diversity of video as an art medium practiced as a global art language.

CologneOFF, founded in 2006 exclusively for the net as an online film festival, developed meanwhile a strong physical component via its physical screenings, projections and exhibitions worldwide, and changed 2010 its name into Cologne International Videoart Festival. It is unique in its kind, since it is no conventional festival. It has no static festival location, but it is organised in form of a media art project, which gives its founder and director Agricola de Cologne all freedom to set through his artistic ideas of creating via global networking. In this way, this festival context is as independent as it can be.

Agricola de Cologne is also no “normal” physical, but a virtual artist, launched as an artist brand on 1 January 2000. It is worldwide the only true virtual artist and curator, whose name is, in addition, simultaneously also his artistic program and concept. Only several times a year, this unusual artist is manifesting himself in physical space. Agricola de Cologne is the creator of a global Internet based network, consisting of countless projects & platforms focussing on different forms of digital art online, and more than 2000 media artists and numerous curators, institutions and organisations around the globe.

Thanks to this network, CologneOFF 2011 is able to travel during the coming months once around the globe and present videoart in a global context.

artvideoKOELN is the curatorial initiative “art & moving images” founded by Agricola de Cologne to be the holder of Cologne International Videoart Festival and responsible for the wide range of activities of CologneOFF 2011 – videoart in a global context, which again is based on a cooperation between Cologne international Videoart Festival, artvideoKOELN and Le Musee di–visioniste – the new museum of networked art.
