The motto "art & the city" was adapted from the TV series "sex & the city" pointing not only to art in an urban context, but also on art dealing with the urban environment, the living conditions under different social, cultural, ethnic, religous or political backgrounds – anonymous or in a community while the individual feels lost, but also to the desire for the other which the urban landscape is missing, the nature or the closeness of a beloved person.

Twelve thematic selections contain more than 150 exciting videos by 120 participating artists demonstrating a magnificent variety of video as an artistic medium without any creative limitations. Focussed on single channel videos, the compilation of CologneOFF VII contains aspects of artfilm, experimental shortfilm, videoloop and traditional videoart and video installation – a specific hybrid form of videoart to be celebrated in different presentation formats.  
Enjoy!

Art & the City

*Nothing else could present the "credo" of CologneOFF better than these 12 thematic compilations.*

*The art medium "video" was changing profoundly during the past 40 years, and actually only the linearity of the medium is left, while the technology and new possiblities in tranferring artistic ideas into moving images are continuously approaching new horizons.*

# CologneOFF 2012

## videoart in a global context nomadic festival project

As a nomadic festival project running 12 months, CologneOFF 2011 is focussing on experimental aspects of the „global“ art medium “video” (experimental film and videoart) by spotlighting the diversity of artistic and curatorial contributions from many countries around the globe. Every month of 2011 is dedicated to other geographical global regions, among them , à Africa, Northern Europe, Mediterrenian, Eastern Europe, Balkan, UK-Ireland, Latin America, Germany-Austria, France-Spain-Portugal, Middle East, Far East.

This ambitious media art project is using CologneOFF VI & CologneIF VII – the 6th & 7<sup>th</sup> festival edition- as its fundament – including for the first time an international jury consisting of the curators from 7 internationally recknow festivals

Margarida Paiva ( director Oslo Screen Festival), Gioula Papadopoulou (curator Videoart Festival Miden Greece), Macu Moran (director Videoart World Barcelona), Giorgio Fedeli (curator VisualContainer Milan), Jonas Nilsson/Eva Olsson (art:screen Orebro), Mohamed Allam (director Medrar Video Festival Cairo /Egypt), Tamas Gabeli (director Budapest International Shortfilm Festival Hungary)

as well a basic screening program to be extended and complemented by curatorial contributions of videoart, presenting and reflecting not only various views on the art medium itself, but also on the selected artists and art works intending to confront the audience a variety of artistic and curatorial approaches. The filters of 12 additional thematic projects complement the concept of presenting diversity.

While CologneOFF 2011 is present 24 hours a day on the net from 1 January 2011 on, each month physical events are scheduled at other around the globe in form of screenings, presentations and exhibitions to be complemented by lectures and workshops.

The presentations of CologneOFF 2011 will not only demonstrate the power of the presented video works, but also the power of presenting the diversity of video as an art medium practiced as a global art language.

CologneOFF, founded in 2006 exclusively for the net as an online film festival, developed meanwhile a strong physical component via its physical screenings, projections and exhibitions worldwide, and changed 2010 its name into Cologne International Videoart Festival. It is unique in its kind, since it is no conventional festival. It has no static festival location, but it is organised in form of a media art project, which gives its founder and director Agricola de Cologne all freedom to set through his artistic ideas of creating via global networking. In this way, this festival context is as independent as it can be.

Agricola de Cologne is also no “normal” physical, but a virtual artist, launched as an artist brand on 1 January 2000. It is worldwide the only true virtual artist and curator, whose name is, in addition, simultaneously also his artistic program and concept. Only several times a year, this unusual artist is manifesting himself in physical space. Agricola de Cologne is the creator of a global Internet based network, consisting of countless projects & platforms focussing on different forms of digital art online, and more than 2000 media artists and numerous curators, institutions and organisations around the globe. Thanks to this network, CologneOFF 2011 is able to travel during the coming months once around the globe and present videoart in a global context.

artvideoKOELN is the curatorial initiative “art & moving images” founded by Agricola de Cologne to be the holder of Cologne International Videoart Festival and responsible for the wide range of activities of CologneOFF 2011 – videoart in a global context, which again is based on a cooperation between Cologne international Videoart Festival, artvideoKOELN and Le Musee di-visioniste – the new museum of networked art.
