Vacations in the Subconscious

100 years – The Manifesto of Surrealism by André Breton.

Surrealist Vacation Resort Athens 2024

@ ADAF- Athens Digital Arts Festival

@ Former Courthouse Santarozza

16 / 26 May 2024

The exhibition project –

Surrealist Vacation Resort Athens- is the 15th collaboration since 2016 between Wilfried Agricola de Cologne /The New Museum of Networked Art and ADAF – Athens Digital Arts Festival Athens.

The Surrealist Project – Vacations in the Subconscious - created and curated by Wilfried Agricola de Cologne 2023 for The New Museum of Networked Art and the collaboration with Torrance Art Museum Los Angeles /USA - will be presented as a screening program featuring a selection of 12 videos from 200 art videos by 180 artists from 50 countries at The Surrealist Vacation Resort Athens – 16 / 26 May 2024.

The exhibition focus at The New Museum for Networked Art during 2024 is dedicated to the 100th return of the launch of André Breton's Manifesto of Surrealism, an art and literary movement

initiated in 1924 taking fundamental influence on contemporary art and the perception of art, culture and daily life, in general.

The title of the exhibition project “Vacations in the Subconscious” is referring to the influence of Sigmund Freud’s psychoanalysis in the arts and philosophy of the 20th century explaining people’s behaviors/acting directed from the Subconscious.

Surrealism was one of several art expressions developing simultaneously in the beginning of 20th century at a historical turning point – facing the industrialization, the horrors of World War I and the desire of people one hundred years ago for a kind of counter movement which was not dominated/ directed by mind. 100 years later these days, there is a similar turning point – think of the global climate change, the digitalization, the uprising wars in many parts of the world, this not just the Russian War against Ukraine, generating again the need for counter realities – a more spiritual world.

Exhibiting the Surrealist Project is the invitation to the visitor/viewer of art to dive deeply to the bottom of one’s soul via moving images and recognize the difference between videoart, cinema and video as an advertising medium, as well.

Digital video is representing quite a young medium starting only about 20 years ago, offering its user/creator fundamentally new possibilities using moving images for artistic purposes.

This PDF catalogue highlighting the individual video titles of the program to be screened is released as an extension of the general PDF outlining the concept and programming.

As posted on

The word "Instagram" is written in a cursive, handwritten-style font. The letters are filled with a horizontal gradient of colors, starting with yellow on the left, transitioning through orange, red, and pink, and ending with purple on the right.
